

~~13.~~ The assembly as recited in Claim ~~11~~, further comprising:

an external air inlet for said air canister in continuous fluid communication with said input assembly by which selectable external re-pressurization of said canister may be accomplished.--

Amend Claim 6 as follows:

In Line 1 thereof:

Delete "Claim 5" in favor of ~~Claim 9~~; and

In Line 2 thereof:

Preceding the term "and", insert the phrase ~~the~~ said mouth of said air canister--.

IN THE SPECIFICATION:

On Page 11, at Page 2 thereof:

Delete the term "portion" in favor of the term --portion.--
